Legislature Acts Send Don C. Brown Lethbridge Prison

Don C. Brown, member of the reportorial staff of the Edmonton Journal, through approval of the legislature as a whole of a recommendation of the committee on elections and privileges, was ordered to be delivered to and detained by the warden of the Lethbridge jail during the pleasure of the legislative assembly.

A division being called on the recommendation, it was carried by 39 to 17.

According to the report of the committee, Mr. Brown, who wrote the column "Under the Dome," under the name of Don C. Brown, was found guilty by the committee of writing two paragraphs directed to an "exaggerated misrepresentation."

ISSUE WARRANT The committee asked that Mr. Speaker Dawson issue a warrant for execution by Sergeant-at-Arms H. S. Newby for the removal to and delivery at the Lethbridge jail.

Gerald O'Connor, Liberal, Edmonton, gave notice of motion and adjourned today he would move that Mr. Brown be released when that day's sitting of the legislature adjourns.

The warrant for Mr. Brown's arrest was not executed immediately, although it is understood that all details were completed.

The complaint against Mr. Brown was made by Mr. J. L. Robinson, S.C. Medicine Hat.

Findings of the committee as moved by Hon. Lucien Maynard, minister of municipal affairs. They declared Mr. Brown responsible for

REPEAL SOCIAL CREDIT ACT MOVED IN HOUSE

Hon. Ernest C. Manning, provincial secretary and minister of trade and industry, in the legislature on Thursday night, introduced a bill to repeal the Alberta Social Credit Act. It was given first reading by the house.

This motion by the minister follows close upon the introduction of a bill to amend the Social Credit Act. It was given first reading by the house.

Recently, Chief Justice Lyman Duff of the Dominion supreme court expressed the opinion that the Social Credit Act was ultra vires.

The Realization of Social Credit Act sets forth duties of the Social Credit Board and provides for the dissemination of "authoritative information."

Franco At Head Of Troops Now On Aragon Front

WITH THE INSURGENTS IN NORTHEASTERN SPAIN, March 25—Bujaruelo, government strong hold on the highway to Lerida, Barcelona, and the Mediterranean, said to be advancing insurgent forces today without a struggle.

HENDAYE, France, March 25—Swift-moving insurgent columns, coming from the west and southwest, reported today they had reached a point three miles from the strategic government stronghold of Bujaruelo.

An official insurgent report predicted the fall of Bujaruelo shortly. General Franco himself was said to be with the advancing troops.

Unique Law Suit Now In Lap Of Justice Houson

CALGARY, March 25—Justice W. R. Houson yesterday reserved judgment in one of the most unique cases heard in the federal supreme court in many years.

ROCK LAB. Canada's entrant at Aintree today, owned by R. H. Bain, Toronto, which had to be destroyed as result of a fall on the famous race track. Rock Lab met its Waterloo at the famous water jump immediately in front of the main stands. He was well back among the 20 horses that remained of the field of 36 at that point. He cleared the fence 2 1/2 feet high, and that wide, but landed in the 12-foot-deep water ditch. His jockey, J. Bliss, well-known amateur rider from the Midlands, was unhurt.

Battleship Wins National Classic In Thrill Finish

American-bred Horse Owned by Woman, at 40 to 1, Takes Great Racing Event by a Head—Canadian Hired Is Killed

TORONTO, March 25—Four Canadians won a total of \$25,000 among them today when Battleship won the steeplechase at Aintree with Royal Danville second and one Canadian hired to ride the horse, was killed.

Aintree, England, March 25—In the closest finish in years, Marion Scott's Battleship, a chestnut horse in man, O'War out of Quarantine, today won the one hundredth running of the Grand National steeplechase. The American-bred horse, ridden by Bruce Hobbs, beat H. C. McNally's Royal Danville by a head.

A crowd of 250,000 saw the field of 36 start the race. Battleship, the fourth horse owned by an American to win the race, started at 40 to 1.

Royal Danville was held at 18 to 1 and Workman at 20 to 1.

Battleship, up with the leaders from the first, scored by a head in the closest finish in recent years.

The first three horses came in the last fence almost on even terms but Workman fell behind as Battleship and Royal Danville fought it out to the final yards.

James V. Rank's chestnut mare, referred to, and did not at any time make any of the remarks attributed to her by Mr. Marshall.

The first three to finish cleared the last fence on almost even terms but Workman fell behind as Battleship and Royal Danville fought it out to the final yards.

SPRING FLOOD TAKES LIFE OF BOY AGE THREE

OTTAWA, March 25—Spring floods menaced lives and property in various parts of Ontario and Quebec Thursday, with one death reported. Arthur Lacroix, the three-year-old foster son of a settler who had been taken to a hospital, was drowned in the flood-swollen Nolin Creek there.

Danger spots were the Chateaux river valley southwest of Montreal, where parts of five villages were flooded, the Winchester district in the Ottawa valley, and the valleys of the Grand river in southwestern Ontario, and the Saguenay, near Owen Sound.

Cabinet Averts Another Crisis In Approving Blum

PARIS, March 25—The cabinet averted a fresh ministerial crisis after 12 days of inaction—today by approving Premier Laval Blum's proposal to seek re-election by the chamber of deputies of only one of his financial bills.

The measure provided for advancement of 5,000,000,000 francs (100,000,000 dollars) from the Bank of France to the treasury to meet immediate bills.

M. MARTINUK GETS 14 YEARS PENITENTIARY

Sentenced by Mr. Justice Ewing Friday for Manslaughter

WIKI-MARTINUK, North Edmonton laborer, found guilty of manslaughter on Tuesday afternoon by a jury, was sentenced Friday morning by Mr. Justice A. J. Ewing in supreme court, to serve 14 years in Prince Albert penitentiary.

Martinuk was charged with the murder of Steve Ivanchuk, North Edmonton poolroom proprietor, but the jury after 35 minutes deliberation found him guilty of the lesser charge.

STRUCK TWICE The man took place on January 30 last at the New Deal apartment, Ivanchuk, according to the medical evidence, died from the wounds received when struck twice with a heavy blunt instrument.

The weapon has not been found. Evidence during the trial was that the accused arrived at the apartment house under the influence of liquor, and had proceeded to Ivanchuk's room. Denied permission to sleep there a fight followed.

In a statement given to the police by the accused, he stated: "I was so mad during the fight I did not know what I was doing. I must have hit him with something I picked up off the floor. We were fighting and all of a sudden he fell down."

The accused admitted striking several blows, but could not remember how he came into possession of any and which, the property of the victim, which were found hidden in Martinuk's bed.

CLARKE'S STORY OF MRS. GOSTICK PROVES ERROR

Confusing Mrs. Edith Gostick, M.L.A. for Calgary, with Mrs. Edith Rogers, M.L.A. for Ponoka, during the recent Edmonton by-election campaign, Mr. Marshall, A. Clarke, K.C., took Mrs. Gostick to task for statements made regarding the election of H. C. Marshall, Liberal candidate, as mayor of Calgary and asked for a correction of the error.

He said that Mrs. Gostick had referred to, and did not at any time make any of the remarks attributed to her by Mr. Marshall.

The plan was inaugurated in 1933, when the government undertook to settle soldier settlers with \$2 for every \$1 paid by them on various arrears on their farm payments.

The bill also reduces from seven to five per cent the interest payable on insurance and tax payments made on behalf of settlers by the government.

\$75,000 Lottery Ticket Drawn In Name Of Toilet

NEW YORK, March 25—Toilet, a dog of dubious breed, was named "Toilet" in the name, Aaron Lipschitz, 37-year-old painter, took every \$1 paid by them on various arrears on their farm payments.

The bill also reduces from seven to five per cent the interest payable on insurance and tax payments made on behalf of settlers by the government.

Wholesale, Retail Distribution Sought In House Resolution

Moved by Mrs. Edith Rogers, S.C., Ponoka, a resolution advocating the government give consideration to taking over the wholesale and retail distribution of petroleum products was unanimously endorsed by the legislature on Thursday.

The resolution was sponsored by James Hartley, S.C., Macleod.

Mrs. Rogers moved that as an alternative or incidental to the main motion, that the government consider undertaking an inquiry into the spread between the field price of crude oil and the wholesale and retail prices of refined petroleum products, with a view to reducing the price.

NOT PUBLIC OWNERSHIP Mrs. Rogers declared that she was not advocating public ownership of the industry, nor that the government must take over the means of production. The distribution system, she said, was overloaded and exaggerated. Reduction in the price of gasoline would mean a reduction in the cost of agricultural products and, affecting transportation, would mean a reduction in the cost of consumer goods.

"After 24 years of consistent development in the Turner Valley area, there has been no discovery of a major oil field," said Mrs. Rogers. From a production of 10,000 barrels of oil, the production has increased to 270,000 barrels or 57,170 barrels in the year 1937. In 1937 there was a remarkable increase

DEFENCE AIDE PLEADS VISION RECKONING DAY

Canada May Yet Face Ruthless Brave Force, Says Mackenzie

OTTAWA, March 25—Possibility of a day when Canada might be called upon to take a stand against brute force, might and ruthlessness in common with other democracies, was envisaged by Hon. Ian Mackenzie, defence minister, as he made his annual statement on his estimates to the House of Commons yesterday.

Canada's defence policy now is the same as a year ago, he declared. It is a long-range armament policy directed to the defence of Canada, consistent with Canadian counts and Canadian priorities against aggression or raid from any quarter.

There are no commitments and no plans for operations outside Canada or for participation in any war beyond Canadian territory.

The shadow of a disturbed world hangs over the hour as Mr. Mackenzie sought approval of a defence program involving an expenditure of \$44,000,000 for the fiscal year ending this month, ending March 31, 1939, just \$2,000,000 short of expenditures for the fiscal year ending this month.

There was less criticism of the program for its extent than last year. There was some on the score it was too small. One member who had opposed last year's estimates announced he had changed his mind. All in all it was a more sympathetic and harmonious house which listened to the minister's defence statement than on the same occasion a year ago.

PORT ROWAN, Ont., March 25—Morley Purley, a grandfather at 50. He has two grandchildren, Peter Barry, four, and Donna Barry, three. They are the children of his son, who was 18, a girl of his own age, and his daughter, Mrs. Barry, was married at 18.

GRANDFATHER AT 38 STILL BOASTS MORE AMBITIONS

PORT ROWAN, Ont., March 25—Morley Purley, a grandfather at 50. He has two grandchildren, Peter Barry, four, and Donna Barry, three. They are the children of his son, who was 18, a girl of his own age, and his daughter, Mrs. Barry, was married at 18.

WOMEN SAID RUINING SIGHT WITH SMOKING

TORONTO, March 25—Women are ruining their sight by excessive smoking, according to Dr. A. D. Rudemann, head of the American College of Surgeons. He is here for the meeting of the Great Lakes section of the American College of Surgeons. He said women are more consistent smokers than men and more prone to smoke.

MYSTERY VEILS DEATH OF SCOTT, FORMER PREMIER

GUELPH, Ont., March 25—An inquest was ordered by the Ontario attorney-general's department today into the death here Wednesday of Hon. Walter Scott, first premier of Saskatchewan.

Cremer Dr. J. P. MacKinnon said in opening an inquest he was acting on instructions received from the department. A jury was empanelled at noon.

The inquest was held in the Home-wood Sanatorium. Dr. MacKinnon who refused to discuss the case in any way, said he was awaiting further instructions before proceeding with an inquest hearing.

Woman Lucky Ticket Holder Refuses Prize

MIDLAND, Ont., March 25—Mrs. Charles E. Preston's health is more important to her husband than any money he might receive from the Irish sweepstakes. She refused to accept the prize of \$2,000 which she had won in the Irish sweepstakes.

Fenton said a book of tickets on the Grand National Sweepstakes, which he had bought, was given to her by her husband. She said she was not interested in the money.

When word came that Mrs. Preston's health was more important to her husband than any money he might receive from the Irish sweepstakes, she refused to accept the prize of \$2,000 which she had won in the Irish sweepstakes.

Local Chinese Wins Prize In Irish Sweep

Wong Tock Min, or as he is known to his customers, Jim Wong, Chinese manager of the Liberty Club in Kingston, and Friday he held an Irish Sweepstakes ticket on a non-starter in the Grand National which was run Friday.

He said that he had bought the ticket from a customer of the safe known to him as "Frenchie" and that he had exchanged a meal ticket for the sweepstakes ticket, which will pay him \$2,000.

"Sweep it," he said, "I just figured it was ridiculous to endanger her health and the peace of our home by insisting."

Nephew Of King Training For War

Swinging along with his 303 Lee Enfield along over his shoulder is Lord Alexander, youngest son of Viscountess Harcourt, sister of King George. The young lord is a cadet in the Kitchener training corps and was engaged in mimic warfare when this photo was made at Farnborough near Aldershot.

### What Can Be Gained?

In what way can the province gain anything by the legislature majority standing pat on the refusal to present the prepared "brief" to the Rowell Commission? That is the one question bearing directly on the issue.

It has cost the taxpayers \$10,000 to prepare that brief. There are some other items yet to be taken into the account, which may boost the total cost to \$12,000 or even \$15,000. That is not a great sum—other provinces must have spent much more—but it is large enough to be of practical importance.

This expense was undertaken for the purpose of preparing a case to be presented to the Commission. If that is not to be done, the taxpayers will have grounds for complaint. First, that while the other provinces are telling the Commission what they want, Alberta is leaving it to be inferred that it would not submit the amount of cash they have on hand. Nor is it true that loans create deposits. The public, he thinks, have been victims on these points, and have become victims of "false impressions".

This looks like setting up a straw man in order to knock him down. Nobody surely can have said or supposed a bank does or could lend out the amount of cash it has in its possession. That would be physically impossible. Nor surely, has anyone said or imagined that when a bank makes a loan it thereby increases its supply of cash. That is equally impossible.

A bank does not lend cash; it lends credit. If Mr. Bennett supposed the public do not understand the difference, he is himself laboring under a false impression. What the public know to be the fact, stated frankly by bankers, is that banks can and do lend credit up to ten times the amount of cash reserves they carry. And when a loan is made the amount is credited to the account of the borrower; how else could it be recorded?

Mr. Bennett understands this quite well, nobody better. But he is afraid the public do not. He need not worry on that score.

Winipeg taxpayers know now what is meant by "opening new sources of revenue". They are to be taxed on their water bills, on their telephone purchases, and on their electric light and power bills. The revenue, it is explained, is needed to meet the cost of unemployment relief. Meaning that if it were not for unemployment relief costs the new taxes would not have to be imposed.

It would be equally true that the revenue is needed to pay the contract interest rates on the city's debt. Had the debt been refunded at lower rates, the additional revenue would not have been required. It is the fashion, however, to blame unemployment relief for all the financial ills to which western cities have fallen heir, including the loss obviously due to high interest rates on city bonds, and the Winnipeg council is no exception in thus explaining matters to its taxpayers.

What is conveniently overlooked is that there would be less demand for unemployment relief if bona fide work had been created as taxpayer earnings went down with the advent of the depression. High taxes, required to meet high interest rates, played their part in putting former taxpayers on the relief list and in preventing municipal improvements at a goodly many cities which have been employed in every city during the period of commercial and industrial paralysis.

### A Waste of Time

Friend Gordon has been poking about the ruins of his hopes in East Edmonton to find some sign of a great moral victory for "unity," or a need for "unity," or a chance that "unity" might have produced a

different result—or something to cheer the drooping spirits of the political amalgamationists. Naturally, without much success.

The figures tell the tale. Backed by all the support the champions of unity could give him, Mr. Gray polled 6,858 votes in East Edmonton last October. Opposed, publicly and under cover, as being anti-unity, Mr. Marshall polled 7,948 votes in East Edmonton last Monday.

"Unity" was effected in East Edmonton in the federal by-election, but not the kind of unity the Journal is talking about. The winning candidate was supported by a combination of Social Crediters, Communists, C.C.F.-ers, and Unity Conservatives. If the inclusion of the latter in the list of peculiar allies did not, the doubtless conclusion is "Conservative vote only." Certainly not for Mr. Cleveley; he got only the support of the old guard. And certainly not for Mr. Marshall. There was only one other candidate they could vote for. And that they did not stay at home is evidenced by the increase of 4,000 in the total of votes polled.

Whatever hopes the mortgage and loan party based on East Edmonton are flatter than the proverbial pancake. The Journal may as well give up the hunt, for there are no signs there that a "unity" candidate would have done any better than the Liberal candidate did, and the probable conclusion is he would have fared worse. Anyone bearing the St. James Street tag would have been beaten before the fight started.

### Editorial Notes

Mussolini made another balcony speech, of the usual cock-crowing type. When speeches of that kind are made in other countries the commentators leave out the "or".

Skatechawkan farmers are to be supplied with black gasoline for their tractors, which will simplify the procedure of exempting them from the sales tax. That will not be popular with the chap who finds it hard to turn tax-free gasoline in the tank of the family car.

British civilians have been supplied with 26,000,000 gas masks, and the factories are working overtime. They are also being instructed how to get into the headgear and advised to keep it handy. There is no doubt that in the old lands that the war to end war was a success. Nor that the next one won't be worse.

The Pope has appealed to Franco to use moderation in the bombing of civilian populations. It is to be hoped he has more influence with the director of assassination than have the Governments of Great Britain and France, who make similar appeals with no success. That is to be hoped, but hardly expected. A man likely to heed such pleas wouldn't need them.

### Fifty Years Ago

#### A Discovery

(By John Carleton in Halifax Chronicle)  
The other day I heard a program given by a blind singer. He was accompanied on the accordion by another blind performer. The singer's story was given to me by his employer.

Not more than a year ago a certain man who was walking along a city street was a man groping for alms. He was impressed by his voice, but being in a hurry he rushed about his business and forgot the man. The next day, however, he heard the singer again and the impression was greater.

This certain man called on a friend of his, a man who runs a restaurant that employs waiters. He asked his friend to come and hear the singer.

The restaurant proprietor was so impressed that he approached the street-singer. He discovered he was blind; he offered him a try-out at his restaurant. There the singer pleased the audience, and he has been in that restaurant ever since. Through him the other blind musician was discovered.

All that that singer needed was one chance. When he got it he made good. The restaurant man's first act was a charitable one; and it paid high dividends.

Many people are like that blind musician. They struggle along waiting and hoping for that one chance to come—hoping—the chance which will put them on their feet. Out of poverty, or remove them from having to do something they dislike doing and cannot do as well as their chosen kind of work.

#### Watchful Waiting

Nothing has been more remarkable since the advent to power of the Nazis than the way in which the ruling families of Germany have kept out of the limelight. The Hohenzollerns disappeared from view after November, 1918, when the Kaiser was ignominiously expelled into Holland. The Nazi revolution in 1933 found them encouraging that movement. They welcomed it as they have served it.

They have served it in the way of kingship since to bestow a sort of sixth sense upon its members—that of self-preservation. They have never been in the way of the way in which the Hohenzollerns have allowed the Nazi flood to roll over them. They have given out no minutes or longer, depending upon the time of revolt against either the religious or any other perversion. They are waiting, watching. Sometimes there is a panic. On February 3, when Herr Hitler was striking right and left, the ex-Crown Prince William bolted across the frontier, forgetting even his passport. This was a great error. It is a great error. The Hohenzollerns have made since the rise of Hitlerism. They have now gone back to their attitude of waiting and watching, with the air of people who are certain that in the end—after the next military disaster, perhaps—things will come their way.—The National Review (London).

#### Spain

The supreme interest of Britain in preserving democracy in Spain is that a Fascist Spain might cut her life-line to the Mediterranean. The outstanding effort of Britain at the war of 1914-1918 was not the driving of raiders out of the sea, but the driving of German submarines in the North Sea by the Dover Patrol in the Channel and to the north by mine-fields supported by the battle fleet. This permitted the safe conveying of munitions and foodstuffs from this continent to the United Kingdom.

The establishment of a Fascist government in Spain might permit the establishment of a dominating and dominating power in the Bay of Biscay, dominating the Atlantic life-line with the threat of starving Britain into surrender. Britain has a secondary interest in preserving democratic Spain in that it is a necessary part of the world's life-line. It is a necessary part of the world's life-line. It is a necessary part of the world's life-line. It is a necessary part of the world's life-line.

#### Czechoslovakia

By and large, the little policy of Czechoslovakia regarding minorities is relatively advanced. Those who think it falls short of the ideal judge it by a standard not recognized in practice elsewhere. It is a standard not seen fit to grant the Germanic districts autonomy. On the other hand, the Sudetic Germans are represented in Parliament and in the Cabinet. Czechoslovakia also recognizes the cherished right of the minority to instruction in its own tongue. Primary schools in Czechoslovakia fall into two categories: Volksschulen for children under eleven years of age, and Burgenerschulen for children from eleven to fourteen years of age. According to a 1934 census, 21.5 per cent of the former and 22.5 per cent of the latter gave instruction in German. German pupils form 1 per cent of the Burgenerschulen and 3 per cent in the Volksschulen, where instruction was given in German. This record contrasts favorably with the Germanic neighbors. —The Yale Review (New Haven, Conn.).

#### A Bad Investment

In the last three years we have heard so much of the horrors of war in Abyssinia, Spain and China that many of us take it for granted our own country must sooner or later be involved in a similar misadventure. It is a factor of transcendent importance—never before in history has it been so obvious that war cannot pay, even when all the lobbies and tanks and artillery are on one side, as they were in the Abyssinian affair. Without foreign credits Italy can do nothing to develop her conquered territory, and the case find no credit unless she changes her whole foreign policy. I have already, in this article, called attention to the cost in men and money of the German and Italian war in Spain—war waged by these non-Spaniards with that sinking feeling that any pickings at the end of it are more likely to go to the City of London than to Berlin or Rome. But the most impressive example is that of Japan. Her entire resources are now involved in a campaign which will almost inevitably ruin her. It seems almost unbelievable that any nation

### Your Health

#### By Dr. FRANK MCCOY

Dr. McCoy's menus suggest for the week beginning Sunday, March 27, 1938:

SUNDAY—Breakfast: Eggs poached in milk, served on Melba toast; stewed fish. Lunch: Escalloped potatoes; asparagus; salad; bread and butter. Dinner: Baked chicken; whole-wheat muffins; buttered carrots; spinach; salad of raw celery; pineapple; grapes.

MONDAY—Breakfast: Grape waffle with a little maple syrup; one codded egg; apple sauce. Lunch: Frit of buttermilk; 10 or 12 dates. Dinner: Minced chicken in tomato jelly; green peas; salad of grated carrots; cup cutout.

TUESDAY—Breakfast: Whole-wheat muffins with peanut butter; stewed grapes. Lunch: Cooked dried carrots; pumpkin (canned); salad of raw spinach and lettuce. Dinner: Vegetable soup; roast beef; string beans; mashed turnips; salad of grated raw carrots on lettuce.

WEDNESDAY—Breakfast: French omelet; Melba toast; stewed apricots. Lunch: Baked potato; green peas; string beans; salad of raw beef; artichoke; green peas; cabbage salad; baked apple.

THURSDAY—Breakfast: Poached eggs; Melba toast; stewed raisins. Lunch: Baked potato; cooked lettuce; ripe olives. Dinner: Roast mutton; baked ground carrots and turnips; vegetable salad; mashed potatoes.

FRIDAY—Breakfast: Baked eggs; re-toasted whole-wheat biscuits; apple sauce. Lunch: Raw apple as desired with hand-cut pineapple. Dinner: Baked fish; asparagus; salad of sliced tomatoes; plain gelatin.

SATURDAY—Breakfast: Cottage cheese; pineapple. Lunch: Spaghetti boiled in plain water and seasoned with butter; string beans; salad of raw celery. Dinner: Broiled lamb chops; cooked asparagus; mashed potatoes; salad of raw cabbage and parsley; apricot whip.

"Baked Ground Carrots and Turnips: Put through the food grinder about equal parts of carrots and turnips, using an equal number of each. It is a good plan to grind first a carrot, then a turnip, to assist in making the mixture smooth. Place the mixture in a shallow pan to a depth of one or two inches, and without adding any water or seasoning, bake in a moderate oven about 45 minutes or longer, depending upon the quality. An agreeable flavor is added if the top is slightly browned. Add butter and a little salt as served."

#### Questions And Answers

QUESTION—Mr. H. J. L. inquires: "Is garlic of value in the reducing of high blood pressure?"  
ANSWER: Garlic has been used in the past for the purpose of reducing the blood pressure and seems to be somewhat effective. However, I find that other means are more effective in lowering the pressure. The fruit juice fast will accomplish superior results in the majority of cases.

QUESTION—Jean J. asks: "Should tomatoes and fish be combined?"  
ANSWER: This combination appears to be especially desirable, as the acid of the tomato seems to assist in the digestion of the fish.

QUESTION—Henriette asks: "Can I eat fruit in the morning which goes away as soon as I get up and move around, or as soon as I eat anything?"  
ANSWER: The most probable cause is the presence of gas which has formed during the night. It is impossible to say just what you definitely want is the cause without examining you and I suggest that the best plan is for you to consult with your doctor.

QUESTION: O. O. D. states: "Ever since having the 'flu' about three weeks ago, I have had a troublesome cough which seems to linger on. Could this be the result of the 'flu' and is it serious?"

ANSWER: It is quite common for a cough to result from an attack of influenza. It has subsided. Possibly the observance of rules of healthful living will be all that you require to cause the disappearance of the cough. Try to eat sensibly, get down on the starches and sugars, increase the vegetables, avoid constipation, and get out in the sunshine if possible. If these measures do not banish the cough, you will want to see your doctor, who will examine you before attempting to advise you whether the cough is serious.

QUESTION—Lennie T. writes: "My work is such that it causes me to be on a nervous strain and after coming home at night I feel very fatigued for the dinner meal. I find that taking a glass of grape juice and then resting for an hour seems to restore my desire for food. Have tried this for several weeks and appear to be gaining steadily. My wife objects, as she thinks I should come right home and sit down to the table and eat. What do you think of the grape juice?"

ANSWER: Nervous tension is notorious as a destroyer of appetite. If you find that taking a glass of grape juice after dinner does not seem to help, try a glass of grape juice before the dinner meal. It also provides an abundance of the alkaline-forming minerals needed to build healthy flesh. Inasmuch as it provides a natural grape sugar, it is a most desirable source of gain in weight, provided enough is taken. Some of the elements in grape juice are: iron, calcium, magnesium and potassium.

Should meat be so much good will in a short time. Who, after such examples, will dare to start a new war?—Vernon Bertlett in World Review (London).

#### Why They Talk

The members of the Canadian House of Commons have been discussing the question of House rules. Some of them feel they are compelled to put in too many hours at formal sessions. Some think the speeches are too long. Some think more work should be done by standing committees.

The forty-minute rule which is in general limits speeches, except those of the leaders, to forty minutes, has now been in effect for eleven years, but the House does not seem to get any more work done than formerly, and the session is no shorter.

Senator George Graham, long ago, suggested that a study be made of the House of Commons was a very simple one. Remove the press gallery to the Senate Chamber, he advised, and the trouble will cease itself.—Vancouver Province.

### SIDE GLANCES — by George Clark

Dr. McCoy's menus suggest for the week beginning Sunday, March 27, 1938:

SUNDAY—Breakfast: Eggs poached in milk, served on Melba toast; stewed fish. Lunch: Escalloped potatoes; asparagus; salad; bread and butter. Dinner: Baked chicken; whole-wheat muffins; buttered carrots; spinach; salad of raw celery; pineapple; grapes.

MONDAY—Breakfast: Grape waffle with a little maple syrup; one codded egg; apple sauce. Lunch: Frit of buttermilk; 10 or 12 dates. Dinner: Minced chicken in tomato jelly; green peas; salad of grated carrots; cup cutout.

TUESDAY—Breakfast: Whole-wheat muffins with peanut butter; stewed grapes. Lunch: Cooked dried carrots; pumpkin (canned); salad of raw spinach and lettuce. Dinner: Vegetable soup; roast beef; string beans; mashed turnips; salad of grated raw carrots on lettuce.

WEDNESDAY—Breakfast: French omelet; Melba toast; stewed apricots. Lunch: Baked potato; green peas; string beans; salad of raw beef; artichoke; green peas; cabbage salad; baked apple.

THURSDAY—Breakfast: Poached eggs; Melba toast; stewed raisins. Lunch: Baked potato; cooked lettuce; ripe olives. Dinner: Roast mutton; baked ground carrots and turnips; vegetable salad; mashed potatoes.

FRIDAY—Breakfast: Baked eggs; re-toasted whole-wheat biscuits; apple sauce. Lunch: Raw apple as desired with hand-cut pineapple. Dinner: Baked fish; asparagus; salad of sliced tomatoes; plain gelatin.

SATURDAY—Breakfast: Cottage cheese; pineapple. Lunch: Spaghetti boiled in plain water and seasoned with butter; string beans; salad of raw celery. Dinner: Broiled lamb chops; cooked asparagus; mashed potatoes; salad of raw cabbage and parsley; apricot whip.

### Old Country Letter

By J. E. NORCROSS  
LONDON, ENG. (By Mail-Sir)  
John Simon, the Chancellor of the Exchequer, will need about \$20,000,000 in additional revenue to defray the cost of the road bill, 1938-9, and Mr. Taxpayer is justly concerned. Justly concerned, however, he proposes to obtain it.

The Budget will not be brought down until a few days before the adjournment for the Easter recess, for the present, Sir John's speech.

The figures with which the Chancellor will deal are gigantic. The total expenditure is the largest since the war, exceeding five billion dollars. Of this sum \$4,000,000,000 must come from taxation, the balance, \$1,000,000,000, being obtained from the monies available under the Defence Loans Act. Sir John might like to know how many more tax-payers he would need to borrow money, but that nobody expects.

In all, the proposed expenditures for the coming financial year aggregate about \$7,000,000,000, and for those of the current year, expenditure of that year of rearmament to be met out of borrowing, 100 per cent for 1000 miles.
